**Rules:** Races are combined time (Run 1 + Run 2 = Total).

Points are earned each race using the World Cup Points chart at the bottom of this page.

Points for the series will be the best three out of four nights for each racer (one throw-out).

In the case of a points tie, the combined times for each of the races the skiers actually raced against each other will be added together. The lowest total combined time wins.

In the case of one completed run and one “Disqualification” run (DSQ) or “Did Not Finish” (DNF) the time of the completed run multiplied by 1.3 will replace the DSQ/DNF.

If both runs are DSQ/DNF the racer will receive a DSQ/DNF for the race.
